(Neb.)-CSC Enrollment Reaches Milestone

By: Chris Fankhauser Posted at: 10/11/2012 09:58 AM

(Chadron)-For the first time in about 15 years, Chadron State College's enrollment has reached 3,000. The institution reports that the fall semester enrollment reached exactly 3,000 on Tuesday, Oct. 9, a 2.15 percent increase from the 2,937 reported on the same date a year ago.

If the number holds until the end of the semester, it will mark the first time since 1997 the institution has ended a term above 3,000. The end-of-term enrollment was 3,003 that year.

According to Dr. Randy Rhine, CSC Interim President, it's been a goal of theirs to reach 3,000 students, and they are proud of the accomplishment. He also said he believes it represents a trend of progress at Chadron State and he would like to thank the faculty and staff who have worked hard to keep CSC moving forward.

Much of the growth is represented in the graduate student enrollment, including those enrolling in the second set of eight-week courses that begin Oct. 22. Students are continuing to sign up for those courses and CSC officials are hopeful that the end-of-term enrollment number will continue to improve.
