By: Roxie Graham-Marski Posted at: 12/26/2012 11:31 AM

(NORTHWEST NEB.)-Farms and ranches with fences damaged by fire may be eligible for assistance under the Emergency Conservation Program (ECP), administered by the Dawes/N. Sioux and Sheridan County Farm Service Agency.

A producer qualifying for ECP assistance may receive cost-share levels not to exceed 75 percent of the eligible cost of restoration measures. By statute, the damage to the land "will be so costly to rehabilitate that federal assistance is or will be required to return the land to productive agricultural use." No producer is eligible for less than \$1,000 and more than \$200,000 cost sharing per natural disaster occurrence. For barbed wire, high tensile wire, woven wire, and heavy-duty fences, posts shall be placed no closer than 12 feet apart and made of metal, treated wood, or other material meeting NRCS technical standards and specifications. Wire fences must consist of no more than five strands of wire. Labor rates shall be the prevailing rate in the county.

Cost-sharing for fencing is adjusted based on the age of the fence. ****NOTE:** Fences over 30 years of age that have been well maintained will often qualify for cost-share as 11-30 years of age.

If age of fence at time of fire disaster is...	Then the allowable C/S percentage is...
0 to 5 years	100 percent.
6 to 10 years	75 percent.
11 to 30 years	60 percent.
over 30 years	0 percent, if all components are over 30 years old.

Please call your local FSA office to schedule an appointment to sign up for ECP benefits.
