(Neb.)- Recent Snowmelt Causing Localized Flooding In Dawes County

By: Jeremy Anderson Posted at: 03/06/2014 09:40 AM

(Dawes County)-According to Dawes County Road Superintendent Larry Hankin, East River Road from Table Center to Squaw Mound Road is closed due to localized flooding caused by runoff from recent snowmelt. It has also been reported that White River is experiencing minor flooding also attributed to runoff.

Local officials are continuing to monitor the White River in the Crawford city park.

Temperatures today are expected to reach well above the seasonal average with highs near 60 degrees. KCSR/KBPY will pass along all of the latest on road closures and conditions as they become available.
