(Neb.)- Northwest Rural Public Power Installs Automated Meter Reading System

By: Jeremy Anderson Posted at: 07/16/2013 03:36 PM

(Chadron)- Northwest Rural's Automated Meter Reading infrastructure equipment has been installed in the Chadron Substation. Customers served from the Chadron substation will have new electric meters deployed.

Those customers affected will receive a letter notifying them of when the automated meter reading will take place. Northwest Rural Public Power District will then mail bills to customers with a due date posted on the bill.

The AMR system provides Northwest Rural customers with numerous customer service and cost saving benefits.
