LINCOLN, Neb. (ASSOCIATED PRESS) - A new University of Nebraska-Lincoln Extension website is aimed at helping business owners understand the Affordable Care Act and its impact on their enterprises.

The website address is <http://eship.unl.edu/healthcare>.

UNL Extension educator Carroll Welte says the website includes timely information for people who are self-employed or who employ a small or large number of people. She says that under the Affordable Care Act, agricultural businesses are no different from other business types. And Welte says farmers and ranchers need to know the rules, especially if they have several employees.

The website has articles, videos and other news and blog feeds.
