WAYNE, Neb. (AP) — Nebraska authorities are investigating the death of an 18-year-old Wayne State College football player after he was found dead in his dorm room.

An autopsy was scheduled to be performed Sunday on Eddie Key III's body. He was found in his dorm room around 7 p.m. Saturday.

Key played defensive end for Wayne State last fall after he graduated from Lincoln North Star High School in Lincoln, Neb.

Wayne State spokesman Jay Collier says the college in northeast Nebraska is providing counseling to the football team and other residents of the dormitory where Key lived.
