(CHADRON)-More than 30 businesses and organizations will help Chadron area residents get 2013 off to a healthy start during the annual Wellness for a Lifespan Health Fair at Chadron State College on Thursday, Jan. 24.

Businesses and organizations will again display and present a wide range of information and insight for creating and maintaining a healthy lifestyle. The event will be from 3-7 p.m. in the ballroom of the CSC Student Center.

The fair is free and open to the public, but some services offered by the exhibitors, such as the blood testing, require payment. One of the most popular features of the health fair has been the opportunity to sign up for blood tests at a reduced cost.

The annual event is co-sponsored by the Chadron Lifespan Wellness Team, CSC, and Chadron Community Hospital and Health Services.
