LEAD, S.D. (AP) - National Guard soldiers and personnel from the Sanford Lab at Homestake teamed up Thursday for an emergency response training exercise. The South Dakota National Guard's 82nd Civil Support

Team and Sanford's emergency response team trained together to respond to the release of chemical, biological or radioactive agents. The 82nd dispatched its rapid response package, which includes 10 people and equipment transported by two UH-60 Black Hawk helicopters.
