

**(Neb.)-Area Students Helping Spread The Word Of Radon Testing** [Listen](#)

By: Jeremy Anderson Posted at: 03/04/2013 03:56 PM

(Hemingford)-Radon is the second leading cause of lung cancer, and students in the Panhandle area are helping spread the word of testing for radon in your home. Panhandle Public Health District's Tabi Prochaska (Pro-cosc-a) tells KCSR News how those students are making a difference.

**Sound In Story**

Prochazka also tells KCSR News how radon can enter into your home.

**Sound In Story**

The only way to measure your particular risk is to test your house. Free radon kits are available to Panhandle residents by calling PPHD at 308-487-3600 ext 107 or toll free at 866-701-7173 ext 107.
