

(Neb.)-Chadron Street Closures To Last 10-14 Days

By: Jeremy Anderson Posted at: 03/21/2013 02:51 PM

(Chadron)- Residents on the southeast side of Chadron who commute near Chadron High School and Chadron State College may notice some road closures as ongoing work is taking place in preparation for the new CSC Rangeland Ag Complex.

Chadron Public Works Director Milo Rust says that street work on the corner of 10th and Cedar streets should last 10-14 days.

Currently a water and sewer pipe is being installed.

The residents that will be affected the most are those from Cedar St. to Ridgeview St.
