

## **(Neb.)-Grant Denial Does Not Slow Down Chadron Pool Project**

By: Chris Fankhauser Posted at: 05/21/2013 04:19 PM

(Chadron)-The City of Chadron recently made an application for a grant that would work in conjunction with the City Swimming Pool project, and was informed this week their request was denied.

According to Chadron City Manager Wayne Anderson, the grant that was denied would have been used for a community center addition to the swimming pool. The swimming pool itself is still on track in Phase I. The grant application was for \$250,000, and Anderson said if they had been approved for the grant but the pool project did not proceed as planned, the City would have given the money back.

The denial of the grant application does not change anything with the pool project. Anderson says the committee is still in the definition phase, and there will be a public vote before anything is finalized with those plans.
