

CHADRON COMMUNITY HOSPITAL & HEALTH SERVICES

Chadron Community Hospital is seeking a full-time athletic trainer. Responsibilities include, but not limited to: performing prevention, assessment, treatment, first aid, rehabilitation and reconditioning of athletic injuries set forth by the existing regulatory requirements. Services will be administered at contracted schools for pre-assigned practice coverage and athletic events. Will also perform clinical activities in support of the rehab department.

Education requirements require a minimum of a bachelor's degree in health related field with current NATA Board certification. Current BCLS (AED) Certification. Successful completion of required BOC and state licensure continuing education.

Excellent benefit package.
